

## **AIDS pin from South Africa**

Give a gift of hope by purchasing a beaded AIDS pin made by women of Sinikithemba, an HIV+ care center in Durban, South Africa.

The AIDS pins, made with traditional Zulu bead work and mounted on an attractive and informative gift card, are one of several income-generating projects sponsored by CWS (Church World Service) that are helping caregivers and people living with HIV/AIDS earn money for themselves and their families.

You, your family, and friends can proudly wear this AIDS pin that declares you care. Just make a contribution of \$5 or more to the AIDS response efforts of CWS. To order visit the link below:
